

Derogations to the EULA for Trial Licenses

APPLICATION, CONDITIONS & RESTRICTIONS

If you want to have a taste of what's on offer, without committing yourself or your clients to licensing under the terms of the EULA, you can opt for a Trial License. Use of a product, service, font, or font software under the conditions of Trial Licensing, invokes the changes set out in this agreement, as well as those set out in Annex II. The trial license model is made available for potential costumers for testing purposes. You agree that products, services, fonts or font software licensed from D-E-A-L and/or its collaborators will, under no condition, be used for commercial purposes. Making available products, services, fonts or font software under the Trial License is at the full discretion of D-E-A-L. D-E-A-L reserves the right to define the conditions under which products, fonts, or font software are made available under this license.
